

MOHAMMED ASBAR.A

SOFTWARE DEVELOPER

■ Ukkadam, Coimbatore | ■ +91 9962034901 | ✉ asbarnstmohammed@gmail.com

PROFILE SUMMARY

I'm an enthusiastic and curious aspiring Software Developer who enjoys learning new technologies and solving real-world problems through coding. I like building simple, practical solutions and continuously improving my skills in programming and software development.

KEY PROJECTS

Edu core — Centralized Learning Platform

Software Developer / Full Stack

- Developed a centralized learning platform to streamline academic activities for students and educators.
- Designed and implemented features such as course management, study material sharing, assignment submission, and progress tracking.
- Built a user-friendly interface to improve accessibility and enhance the learning experience.

Traffic Management System

Software Developer

- Developed a smart traffic management system to improve traffic flow and reduce congestion in urban areas.
- Designed features for vehicle monitoring, traffic signal control, and real-time traffic data management.
- Implemented data processing and monitoring modules to analyze traffic patterns and optimize signal timing.

EDUCATION

Bachelor of Technology in Artificial Intelligence and Data Science

2023 – 2027

Hindusthan Institute of Technology

SKILLS & TECHNOLOGIES

PYTHON	JAVA SCRIPT	DBMS
TESTING TOOLS	API HANDLING	PROMPTING
MACHINE LEARNING	REST APIs	GIT
